

# **Souldrivenlove has never changed.**

***TW: Softcore porn, scat, ERP chat logs, just in general weirdo shit.***

In spite of souldrivenlove's attempts to clean her reputation and claim that she has matured over the years, I believe that her actions would show the opposite.

This document aims to expose the behavior of souldrivenlove (A.K.A. *Robotic\_Developer/Robo/Soul*), and other alarming aspects such as emotional manipulation along with very questionable and weird decisions.

Not many people know that in her most popular game "Forsaken", there is (*quite literally*) a NEONAZI introduced as an NPC, many people would decide to brush it off as just a funny insert of a friend, or an inside joke on the dev team. However, not many people know of his backstory, the fact that he was arrested (and still is to this day in jail), along with his degenerate interactions with Soul.

As soon as I had caught wind of this addition to her game, I've been digging as deep as I possibly could, trying to piece together as much evidence as I can. I simply believe that this is completely unacceptable to have on a children's game, and it's even worse because 99.9% of players that touch this game, do not know the entire story, Soul does, and is actively taking advantage of the fact that NOBODY else does.

With this document, I seek to provide context and evidence to the best of my abilities regarding this individual, to show the entire Forsaken and Roblox community as a whole, how much of a weird person Soul really is.

## Section 1: **Kaiser\_Fungus1**

Roblox account: <https://www.roblox.com/users/2917614365/profile>

**Kaiser\_Fungus1** (which we will be referring to as **Fungus** for the rest of this document) is a 17 year old, Dutch neonazi of Venezuelan descent that is currently serving jail time for stabbing his (at that time) sister's boyfriend for the sole reason that they were turkish.

AFAIK, Fungus had originally come up throughout 2020-2022 in RLPS (Robo's Local Pizza Shop), quickly making a name for himself in said community because of his edgy and very dark, nazi sense of humor, which was the common demeanor in RLPS on that period. He was also a degenerate, posting his own shit on RLPS SEVERAL TIMES. Fungus had also dropped out of highschool at 13 years old, shortly before joining RLPS.

*Fungus as an npc in Forsaken's main lobby, you can go find him right now by the shore.*

## EXHIBIT B

He interacted with Soul on RLPS a lot, getting into very degenerate acts, such as performing ERP.

ERP between fungus and Soul (Robo in this screenshot) in a publicly available channel, allegedly, Fungus had participated in this to get paid 10,000 robux.

Fungus frequently and publicly hated on turkish immigrants on RLPS, (Picture not found) eventually, his hatred had gone too far and, on August 16th, year 2022, Fungus messaged another member of RLPS through discord DMs, claiming that he would be on Dutch TV tonight, as he was about to stab his own sister's boyfriend, the reason being he had Turkish descent. Fungus was 14 at the time of arrest.

I don't have evidence of the DMs, but eventually a news article finally slipped out reporting the case.

If we enter Fungus’ roblox profile, we will find he is in many roblox groups, most of them had

previous RLPS members, some of them even working on Forsaken!

This is the group wall for “ANGRY WHITE MEN”, a group owned by what I assume to be one of Fungus’ many alt accounts.

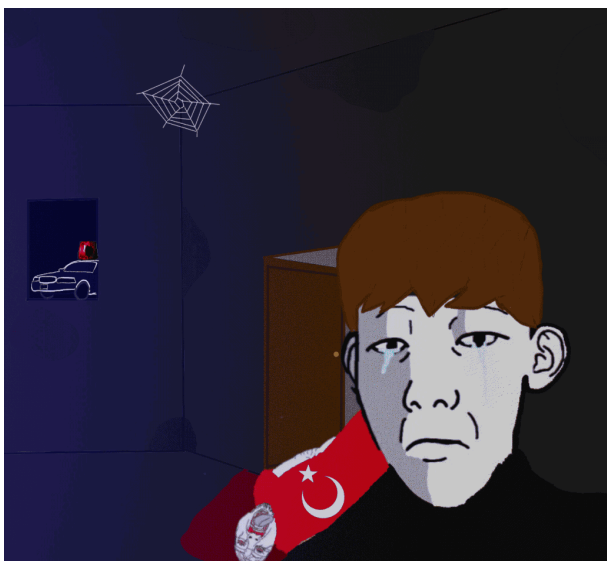

(Hey that jhocolat guy is a moderator for Forsaken!)

Another account found in the group “Fungal Affairs”, This is not an alt account because the description directly references Fungus and the crime he committed. (Zaap is his legal first name, 16/8/22 was the day he stabbed his sister’s boyfriend.)

*Ironically enough, a wojak was made about this whole ordeal.*

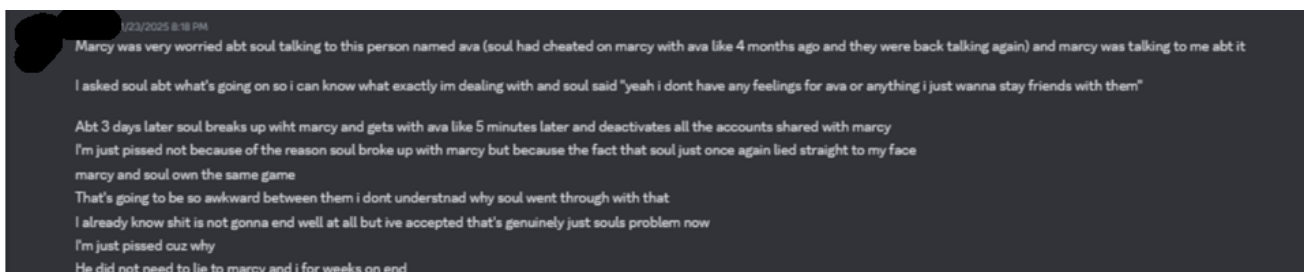

**Yes this is real.**

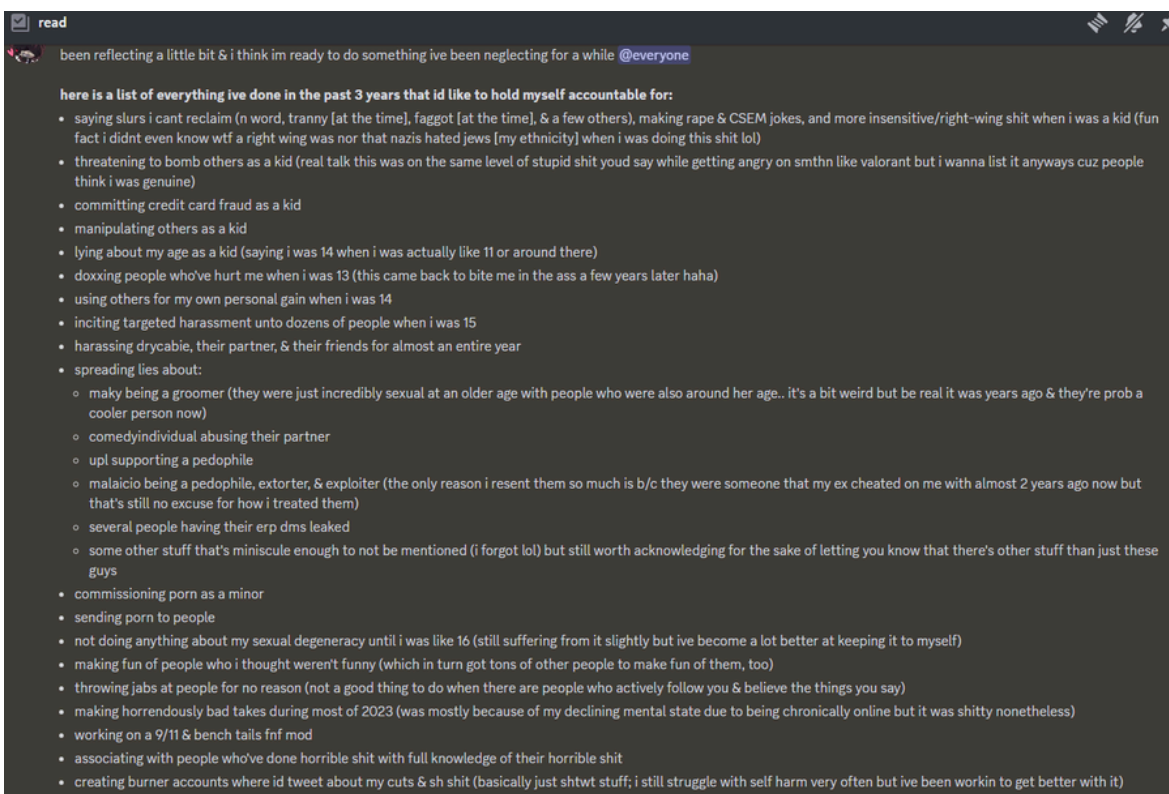

## Section 2: **Souldrivenlove** & their partner, **Juno**.

***This document was mainly about Fungus, but since I have extra evidence, this section will cover information both old and recent caught on soul & their partner, Juno A.K.A Ava.***

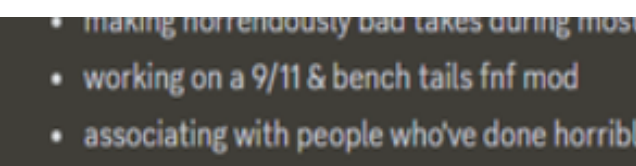

Close person to Soul, admitting that Soul manipulated & lied to them and Soul's ex Marcy (*censored name for safety*), evidence as recent as *late January-early February* of THIS YEAR, showing no real change in her way of being. (Remember this for later!)

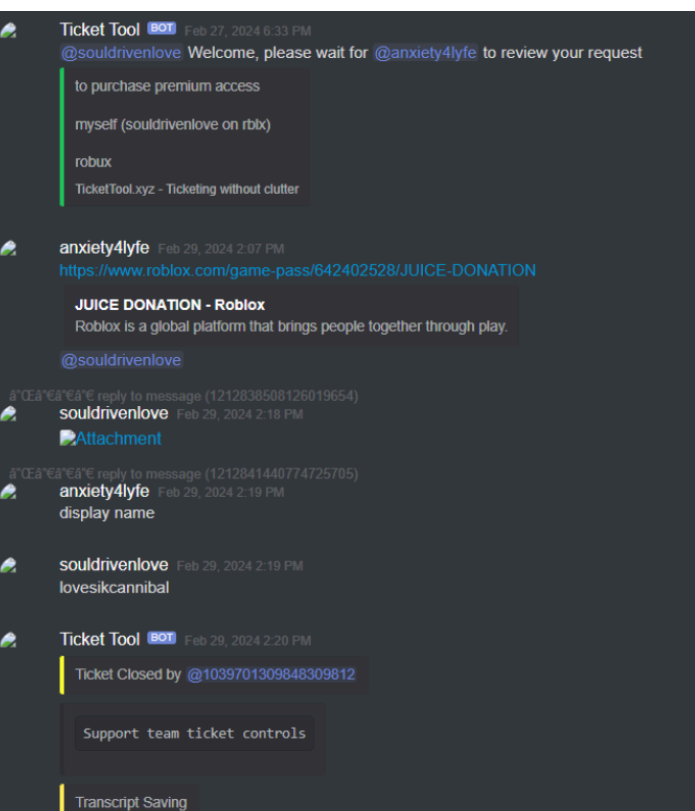

More below.

The famous “Apology” list made by Soul, somehow went forgiven. I don’t really know how you can forgive most stuff on the list, specially with entries like:

*I genuinely have 0 idea how this went under the rug.*

Slightly older image (early 2024) of Soul joining ROBLOX condo groups and buying gamepasses from them.

*This tweet includes further proof that Soul does indeed own a condo gamepass:*

<https://x.com/Qx0tixz/status/1895797322933813602>

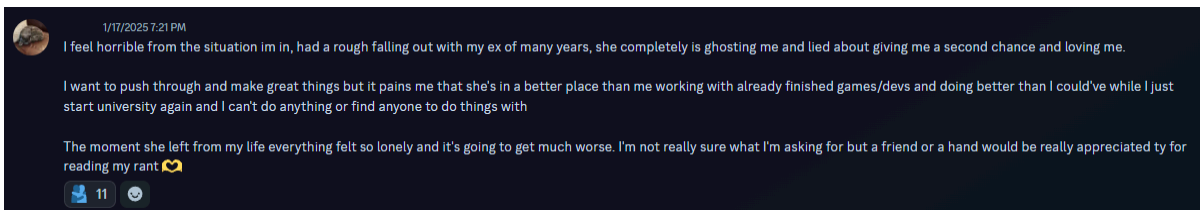

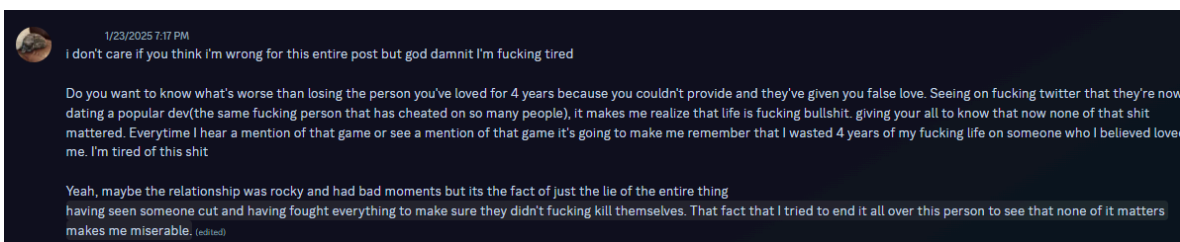

*Other document already created on this individual, which still is worth noting.*

 **SoulDrivenRobo**

*Lastly, more of a meme, but, back in 2021, Soul had written a document called “**The three page plan**”, if we analyze it closely, comparing it to her behavior and everything that has happened regarding her community, it is eerily very similar to everything that was written in said document. (Everything before step 11.) (ENN and CSS were popular clans back in those days.)*

 **THE THREE PAGE PLAN™**

Now moving onto their partner, Juno A.K.A Ava, they don't have as much shade as Fungus/Soul but still this is worth noting.

Screenshots of their former partner (*who shall not be named*) Having a breakdown over suddenly breaking up with Ava, Ava would then go on to date soul but also make a separate document admitting to lying, manipulating, being racist, transphobic, etcetera, which can be found here;

 **Coming Clean** — *i've noticed this document was taken down by junos, so heres a archive of it*  **Copy of Coming Clean**, stop trying to run away from who you are.

Notice how in this document, she apologizes to “everyone” she has hurt, but there is never an apology given to her ex, which was still incredibly hurt after the entire situation, showing how Juno herself is also a manipulative liar.

# EXTRAS:

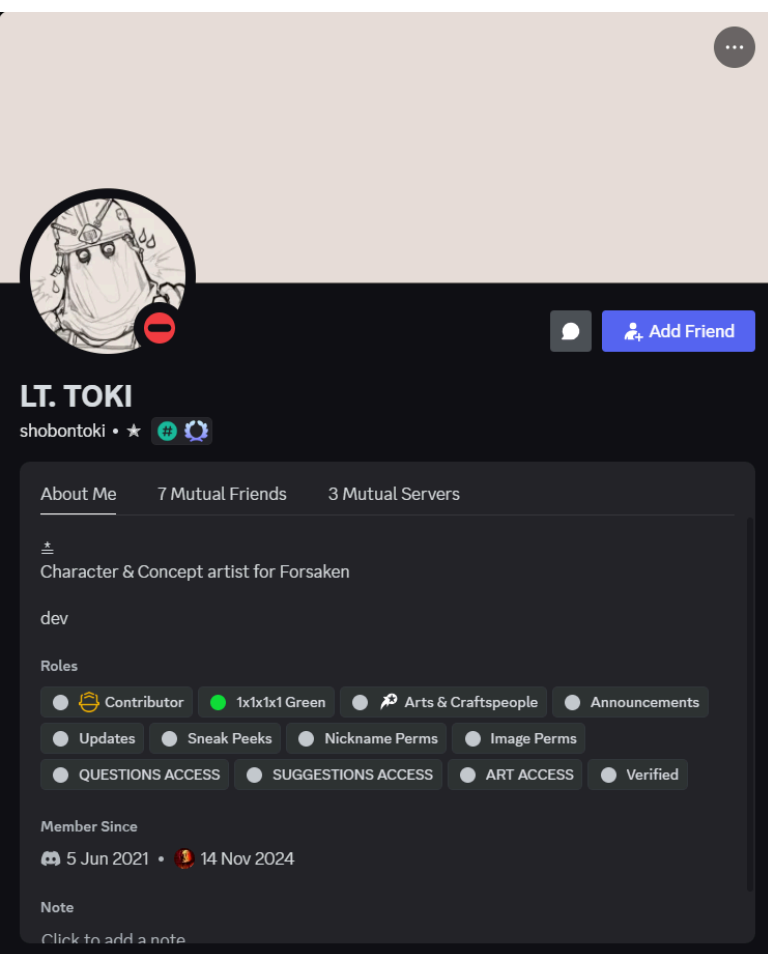

## Forsaken contributor Toki

(A.K.A. nr1toki/iskinnedyourneighbor.).

Roblox account: <https://www.roblox.com/users/10080799/profile>

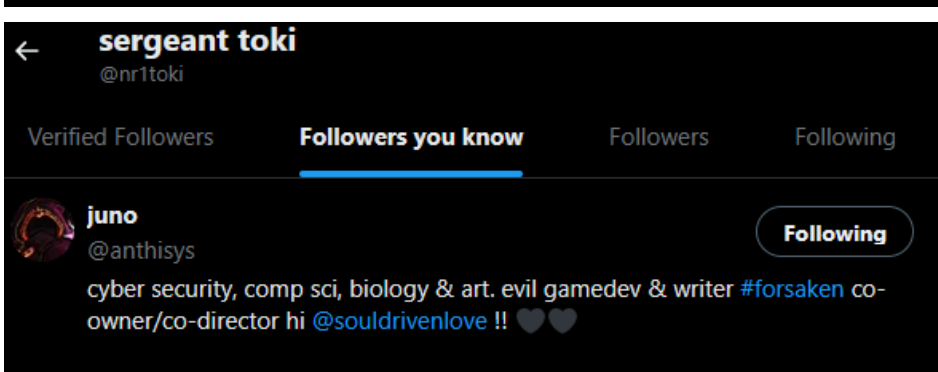

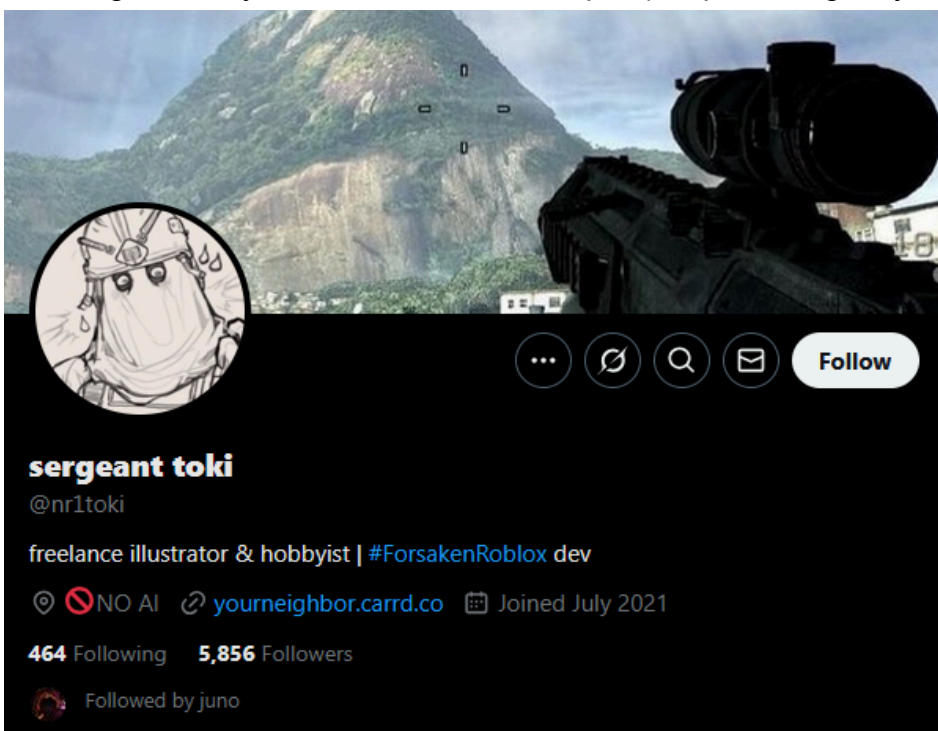

Originally, this person was never meant to be included in the document, however recently one of my friends came forward with concrete evidence of this person being a degenerate, so I'll make sure to shed some light on this person as well. It also just shows these people (higher ups in the forsaken community) have never heard of a background check in their lives.

Toki is a concept/character artist for forsaken, they're not SUPER involved in the game's development but they're still being included since they're a part of this community and have participated (in some way) in forsaken's development.

Toki in forsaken's discord server, has the contributor role.

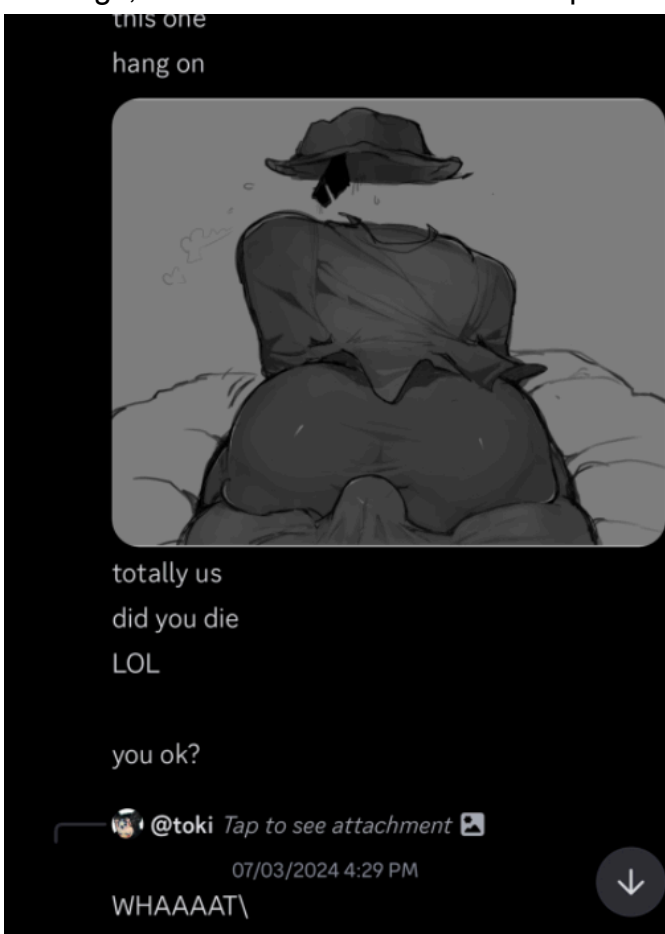

If we enter Toki's twitter profile (which is linked on their own roblox account at the time of this document being written), we can see that jun0 and toki both follow each other, as well as toki including that they are a Forsaken developer (despite being only a contributor).

For the sake of simplicity, from now on I'll be referring to my friend as X.

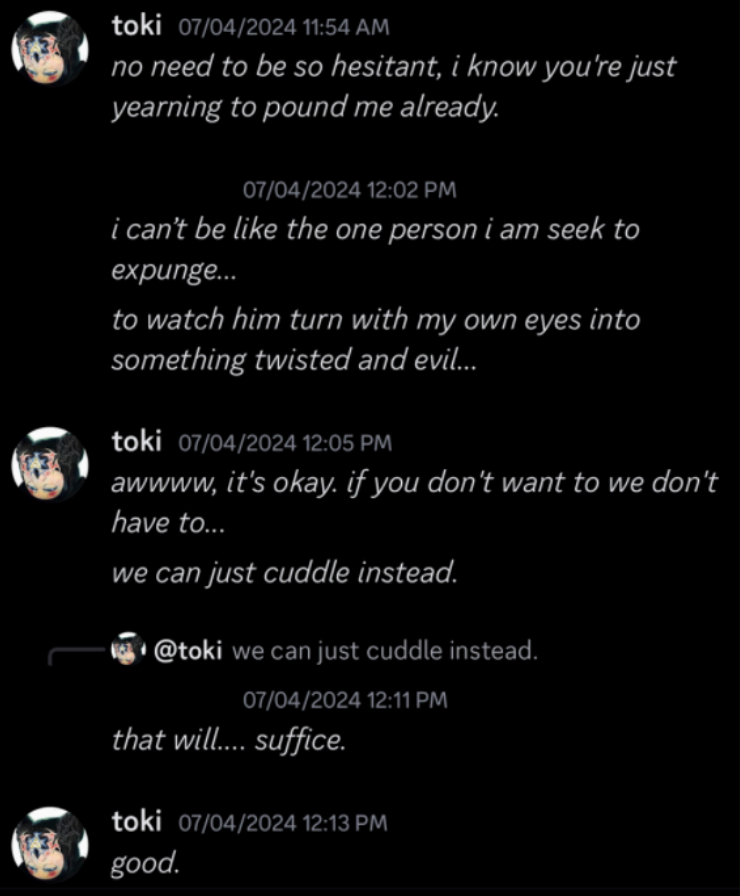

X and Toki had started talking in 2024 and shortly after also started dating around June of the

same year, during their relationship, Toki would start spontaneously drawing very suggestive drawings, and also would send softcore porn to X without asking for their consent first.

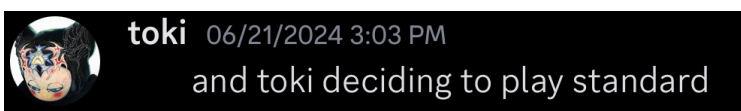

*Toki sending softcore porn of someone and her own roblox avatar (that she probably drew herself), despite not having any consent from X.*

More messages between X and toki, now July 2024. We can see Toki trying to perform ERP with X.

Toki being extremely suggestive out of the blue.

7/6/2024 2:48 AM

literally  
the pfp  
that i did not even ask for  
it just HAPPENED  
is me and toki sleeping together

*Testimony from X regarding her drawings (in this case a profile picture), specifying how her drawings were never actually requested and something she went out of her own ways to make.*

**i've also noticed her response on twt, expect a counter doc soon enough.**

## Conclusions;

Assuming you read this entire document and finally get to realize how much of a horrible person they are, we can see that **souldrivenlove** has in fact, never even gotten near to real change. They still manipulate, lie and do other horrible things even while having the nerve to claim they've changed. Not only that, but casually adding Fungus into her game knowing fully well that THAT guy is a **neonazi** currently serving **12 YEARS IN PRISON** for stabbing another person, taking full advantage of the fact that very few people in her inner circle actually know about this guy tells me everything I need to know.

It is VERY IRONIC on how one of the entries in her "apology" list is about this exact same thing I'm talking about, but I'm guessing Fungus didn't do "horrible shit" in her eyes?

- associating with people who've done horrible shit with full knowledge of their horrible shit

To the forsaken community and roblox as a whole too, please realize that this person has completely manipulated you into believing that she's a changed person, just like she manipulated her ex and her close friends, now it's YOU.

You're actively supporting this person by playing her games. I was very disappointed to see how people quickly forgave her because she acknowledged all of the horrible shit she did in the past. Of course, if you don't know any of the context at all, it's easier to do so. I truly hope that this document helped to shed some light on what really happens behind the curtains. I hope that now that you've finished reading this document, and learned all the shit that she did, you look at her with a very different image than what she wants everyone to believe.

ooohhh boy its time to edit this shit again, i've recently figured out soul's "apology" on twitter was cypasted from an already existing document LMFAO

☰ where ive been, how ive been doing, and who i am (NOT exactly cypasted but shits literally just a rewrite of this brah, compare the two together) + the copy version in the case it gets downed again! ☰ Copy of where ive been, how ive been doing, and who i am , this will be a last edit for a while prbly until something else comes up

**Really funny how guilt tripping be the only way through atp LOL**

damn the response was so good soul privved and purged everything from the 22nd of feb to today, crazy shit
